

MOBILE MASTER™

For over half a century Hardigg has proudly developed custom solutions for the transport and packaging needs of the US Government. Our innovative products enable sensitive equipment and crucial supplies to travel through hostile environments and arrive operational and ready to go. By developing custom solutions, testing new materials and continuously improving designs based on the users' feedback, we have been able to build this robust line of Mobile Master™ cases that proudly lives up to the harsh demands during conflict as well as peacetime. We look forward to solving your toughest shipping issues and seriously encourage your request for specific needs cases. After all, in the field, top-notch performance matters most to both of us.

- 3 Standard Sizes
- 3 Colors: Olive Drab, Desert Tan, Gray
- Interlocks when stacked
- Designed to maximize cubic space in 20-foot and 40-foot sea containers
- Designed to maximize usable space on a 463L pallet
- Designed to fit on the back of a M1097, M923 or M813 (5 Ton) and M1113 HMMWV

These cases are designed so that they can be transported via 463L pallets, commercial and military aircraft, commercial and military vehicle and sea containers. Unlike wood or other materials, these cases can be shipped in and out of any country since they are made from inert polyethylene. Polyethylene cases are also recyclable.
